### **EUROSCRIPT NAMES NEW MANAGING DIRECTOR OF SYSELOG CANADA**

**Bertrange, 30 January 2008** – euroscript, a leading provider of content lifecycle solutions, today announced that Amedeo Clara has been named Managing Director of syselog Canada Inc. He succeeds Benoît Laxenaire, who relinquishes this position in order to fully concentrate on his role as Chief Sales Officer (CSO) of euroscript International S.A. syselog Canada has doubled its turnover from 2006 to 2007, and has customers in Canada and North America.

“Amedeo will be responsible for driving growth of our North American activities, and fostering collaboration with other euroscript divisions, such as our European engineering and technical authoring teams,” explained Benoît Laxenaire.

Amedeo is a trilingual (English - French - Italian) business development and technical systems professional with extensive experience in computing and engineering systems, and simulation technology.

He comes to euroscript from Utility Consulting International (UCI), where he was Lead Consultant to utility companies worldwide. Previously, he worked as an independent consultant for CAE Inc., L-3Com, and as Vice-President Business Development for SNC-Lavalin Inc.

“Amedeo has demonstrated the ability to lead technical teams of engineers in the development and deployment of innovative solutions to software and hardware system challenges. This expertise makes him a perfect fit to support our long-term strategy”, added Benoît Laxenaire.

In 1976, Mr Clara obtained his Bachelor of Science in Physics from McGill University, Montreal. Two years later he was awarded a Master of Science in Nuclear Physics from the same university.

### About euroscript

euroscript International, based in Luxembourg, is a leader in providing customers with global solutions in content lifecycle management. The euroscript divisions (Delt ICT Services, docConsult, eurodoc, euroscript and syselog) deliver comprehensive solutions that help customers design, build and run content management operations of all sizes. Its employees' expertise covers the fields of engineering, consulting, system integration and business process services. The latter include all processes and technologies required to capture, prepare, localise, manage, publish and archive electronic content.

With offices in Belgium, Canada, France, Germany, Hungary, India, Latvia, Luxembourg, Poland, Portugal, Romania, Switzerland and the Netherlands, euroscript International serves customers in a variety of business sectors including the public sector, manufacturing, financial services and energy & environment.
